

Umm Qasr Logistics Centre (UQLC), Iraq

The journey of your cargo doesn't end at the port...It begins at UQLC

Gulfairer's UQLC operated by Momentum Logistics is your one-stop logistics shop from quayside to port exit. In addition to that, IPA and customs clearance are available directly on site. The facility eases the direct movement of cargo from the Iraq Container Terminal (ICT) and the North Port, into UQLC, without the need for port side customs clearance. UQLC gives you, the customer, complete control within a safe and secure facility, offering a complete end-to-end range of services.

2 Cool Stores

Access and Loading - Ground Level Integral Office Space

Partnering Progress

750,000

m² Total Area of
the facility

6,750

m² warehousing

100,000

m² Inland Container
Depot within UQLC

Storage : Secure bonded warehousing and cold stores now available. Consolidation, deconsolidation, stripping and stuffing of containers can also be done at UQLC.

Cargo Security : Secured cargo means peace of mind for you.

Flexibility : You can take delivery of your cargo when you want to, in a manner you would like to. The ICD provides flexible timings and stripping options with in-house customs clearance.

Access : Gulfairer controls and regulates entry and exit to and from UQLC, providing direct access to the main Basra highway, avoiding all the traffic from the North Port and South Port of Umm Qasr

Control : All the above permit you to manage and organise cargo from the point-of-entry to clearance and organise suitable deliveries.

Safe and affordable accommodation in Iraq : by partnering with Global Sourcing and Supply, an integrated facility management and contract supply operation, for the provision of warehousing, camp design, office management and facility management solutions.
