Gulftainer Customer Advisory

Dear Valued Customers,

In light of the current situation affecting terminal capacity and yard management at Khorfakkan Commercial Terminal (KCT), Gulftainer will implement the following temporary measures with immediate effect.

Containers that are not collected within three (3) days from the date of vessel completion of operations will be automatically transferred to an inland facility, either Sharjah Inland Container Dry Port or Saja'a Dry Port, for onward storage.

Such transfer will be arranged by the terminal for operational reasons and without further notice. The costs and risks associated with the inland transfer and subsequent storage at the designated facility shall be for the account of the cargo interests. Without prejudice to the foregoing, Gulftainer reserves the right to recover any unpaid charges from the relevant Carrier or Shipping Line.

Customers are therefore requested to ensure timely clearance and collection of containers in order to avoid additional transfer costs.

This measure is effective until further notice and is intended to support terminal operations during the current circumstances.

Should you require further clarification, please contact your usual Gulftainer representative.

Kind regards,
Commercial Team
